LT-Delphi系列

Delphi product family consists of 4 models to meet different needs and budgets in the same office.

Delphi comes in two finishing lines. In the Basic line, the seat, back and armrest are upholstered in fabric or synthetic coverings only in front while leaving the back-shell in black plastic finish, creating a stylish two-tone appearance. For an additional fee, the Premium line features leather upholstery in front as well as a leather-wrapped back-shell, complemented by a thicker contrast colour stitching, to create a classy luxury object.

LT-FULKRUM 系列

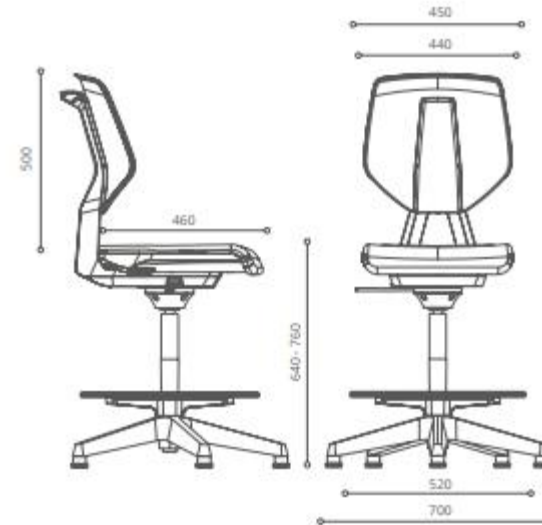

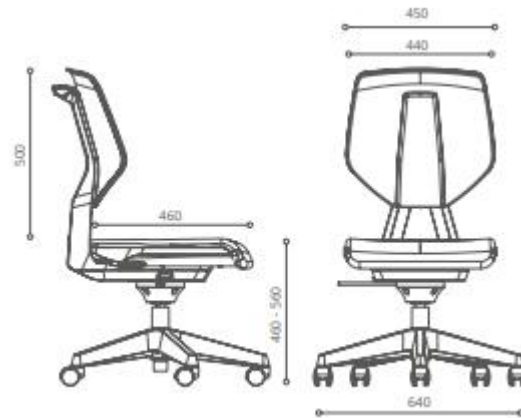

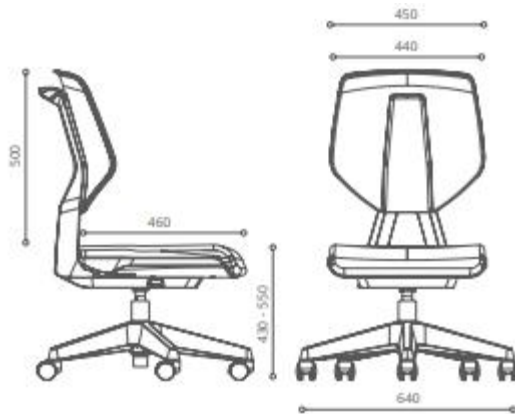

Ergonomic considerations namely, a ventilating mesh back, a fine-adjustable lumbar pad and a synchronized mechanism enables its user to work comfortably and efficiently from the desk over longer periods. The user becomes the center thus, fulcrum of workflow and information movement

KADEN

Featuring smart and stylish design, KADEN aims to provide an enhanced seating experience at work, especially in the medical and lab environments. Sturdy design with added back support, KADEN is ideal for practically any side-way or forward-leaning tasks.

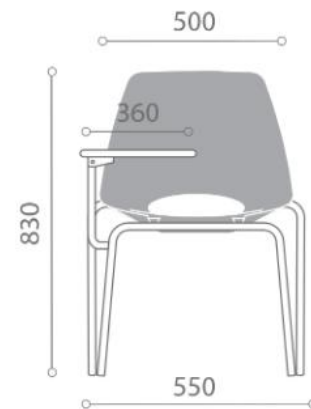

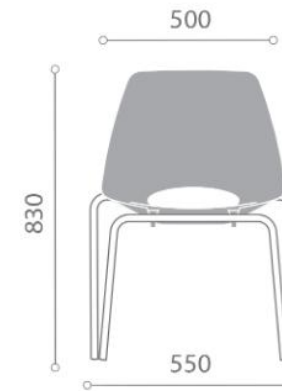

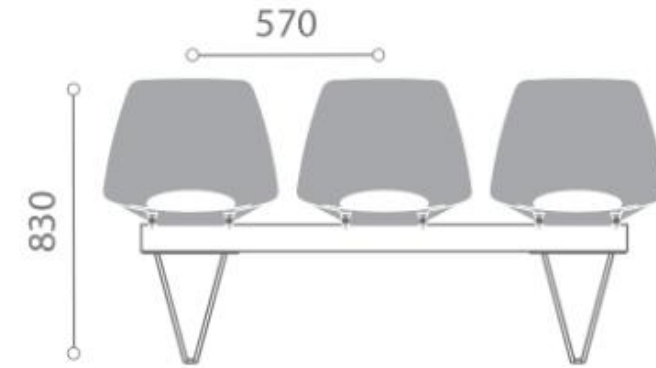

Design lives within the lines. No one can say that this chair appears “utilitarian”.

LT-Kopi-O 系列

Kopi-O is designed for general seating applications for both indoors and outdoors.

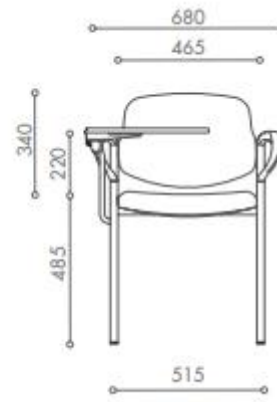

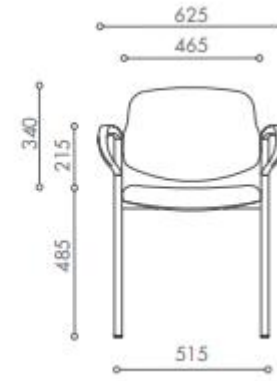

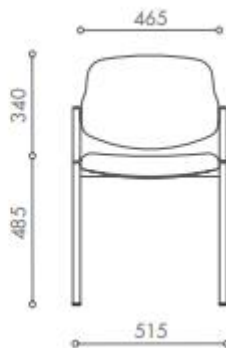

Kopi-O is available in several versions. The four-leg and sled leg versions are the most versatile.

LT-LAGENDA系列

The multi-functional four-legged chair with or without armrest, or with writing table.

LT-Mobby 系列

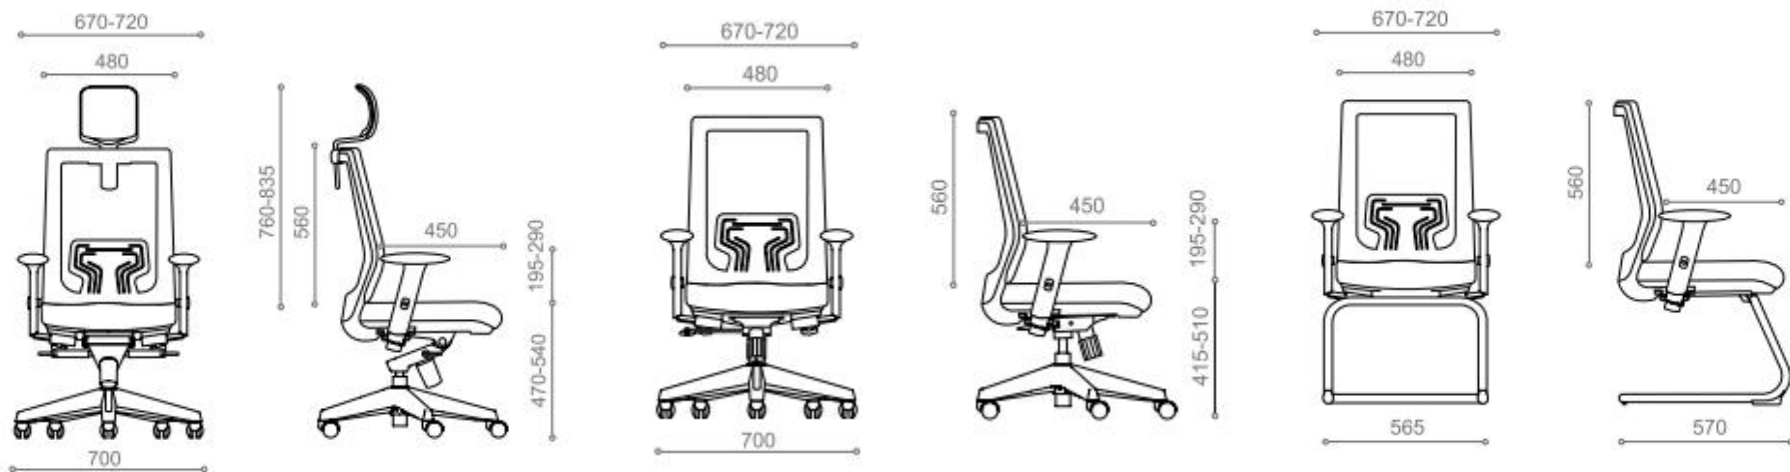

Mobby is lively, mobile and unpretentious little fella with a colourful personality. You can easily move it around for an impromptu breakout session, or store them away when you need the space for something else. Eye-catching mesh-like shells in popular colour options gives a smart look to suit all venues, from seminar rooms to cafeteria. Its versatile enough to suit educational, teaming and conference applications.

LT-MATA系列

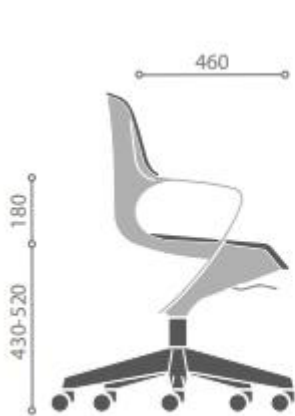

The ever popular Mata welcomes new additions to its family — Mata offsprings.

LT-Nez系列

Nez's flexible back is designed to cuddle your back, following your every movement. The Nez with Fin-type lumbar support will keep you supported in every position, making you feel comfortable throughout the day. The mesh material at the back gives the chair a stylish back side-line.

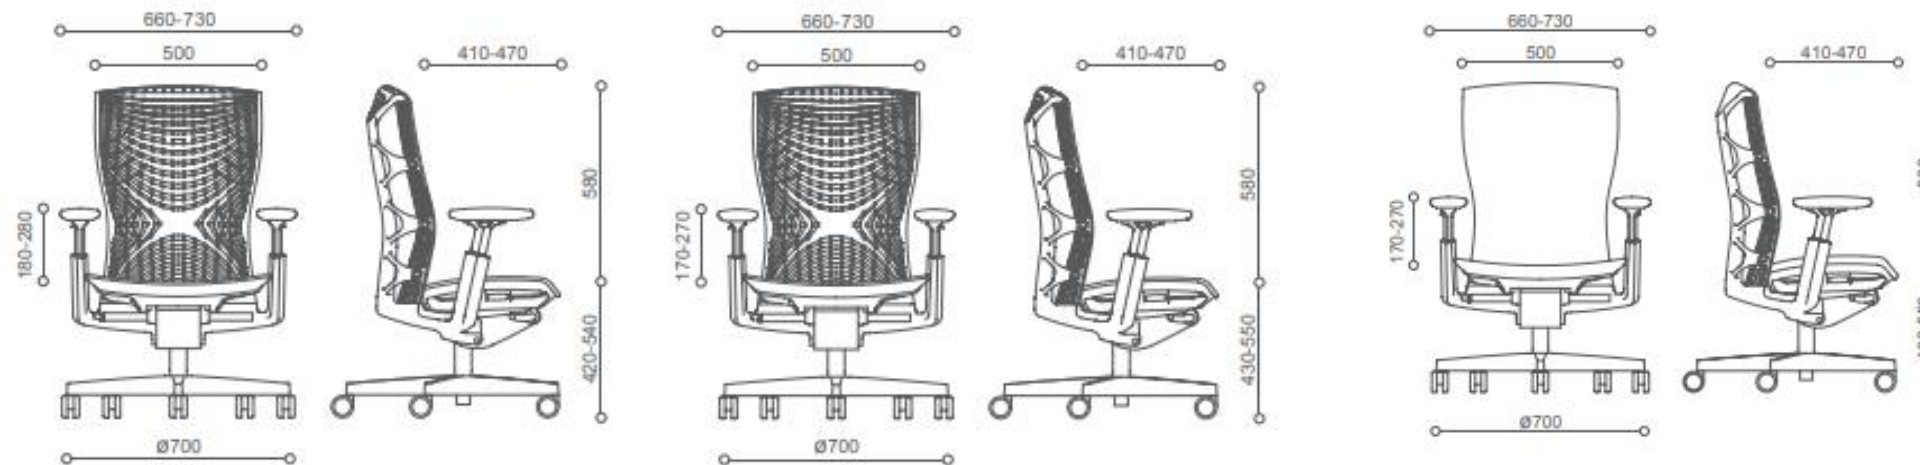

LT-REYA系列

Unbounded movement with an ingenious rim-less back design. Don't let your chair box you in.

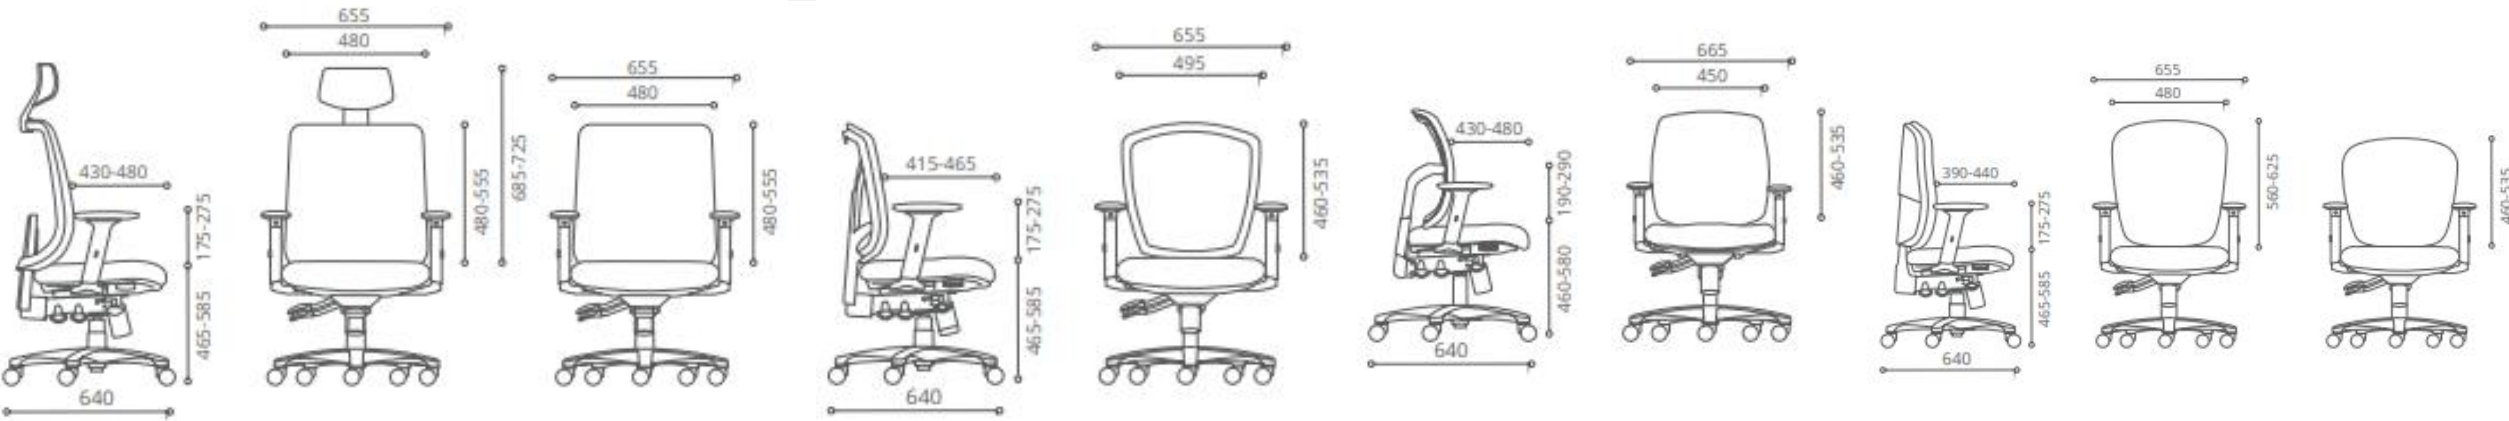

3D sandwich mesh is stitched directly on to the elastomer webbing, instead of using other fastening methods to avoid losing edge flexibility

It is almost universal knowledge that sports equipment are designed with ergonomics in mind and to let you perform to your maximum potential. With an awesome design to make you look like you are on top of the game. We set out in this direction to make a chair that lets you extract maximum performance through improved ergonomics. We designed and developed new construction techniques borrowed from sportswear. Using hard stiff structures to transfer forces where required, blending with soft flexible materials where it meets our body for comfort. We used a new stitching method to attach upholstery fabric to the back so that it remains thin and flexible at the edges where shoulders will lean into. All the while looking attractive like the latest pair of high tech sneakers.

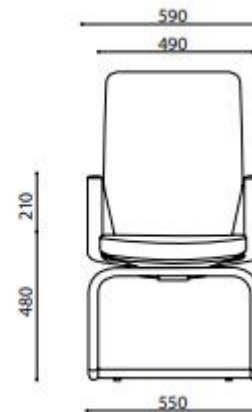

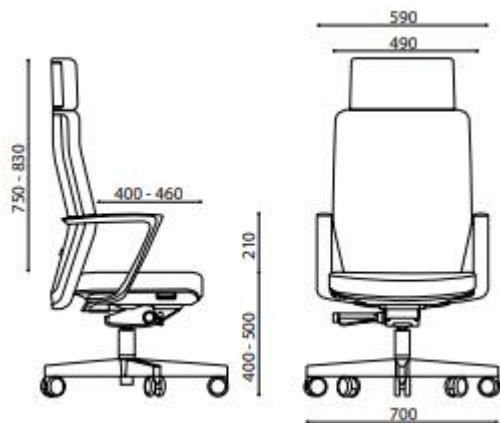

Saga is a durable and ergonomic office chair that is an ideal seating solution for users with restricted budgets yet still demand high quality construction and ergonomic design

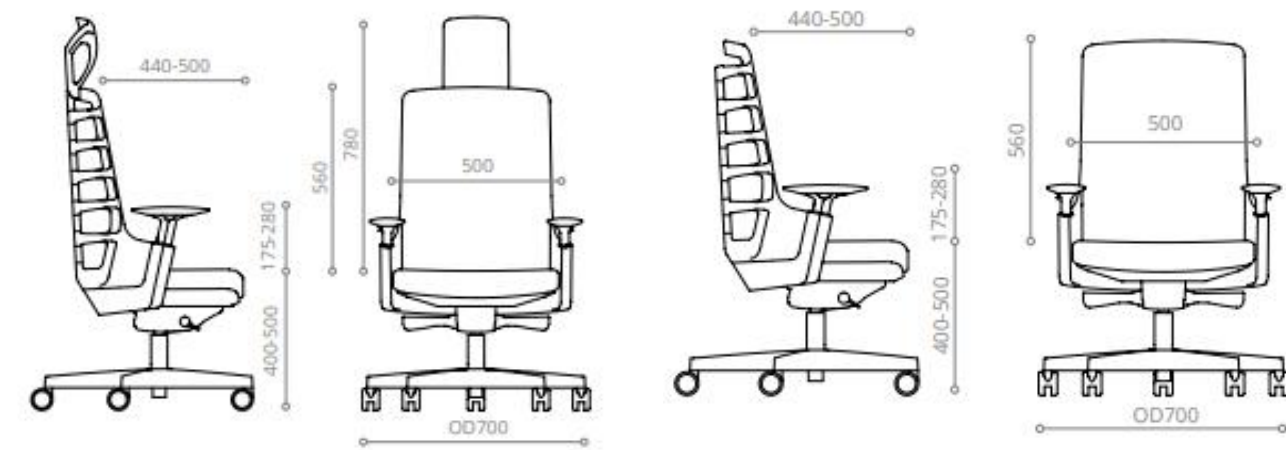

LT-SONOMA

Inspired by the innovative and modern wine producing county in Northern California. Sonoma looks to re-interpret the traditional look of the leather executive chair. Reflecting the sophisticated yet laid back nature of this place, the simple yet elegant aesthetic was conceived to complement both classic and modern executive offices.

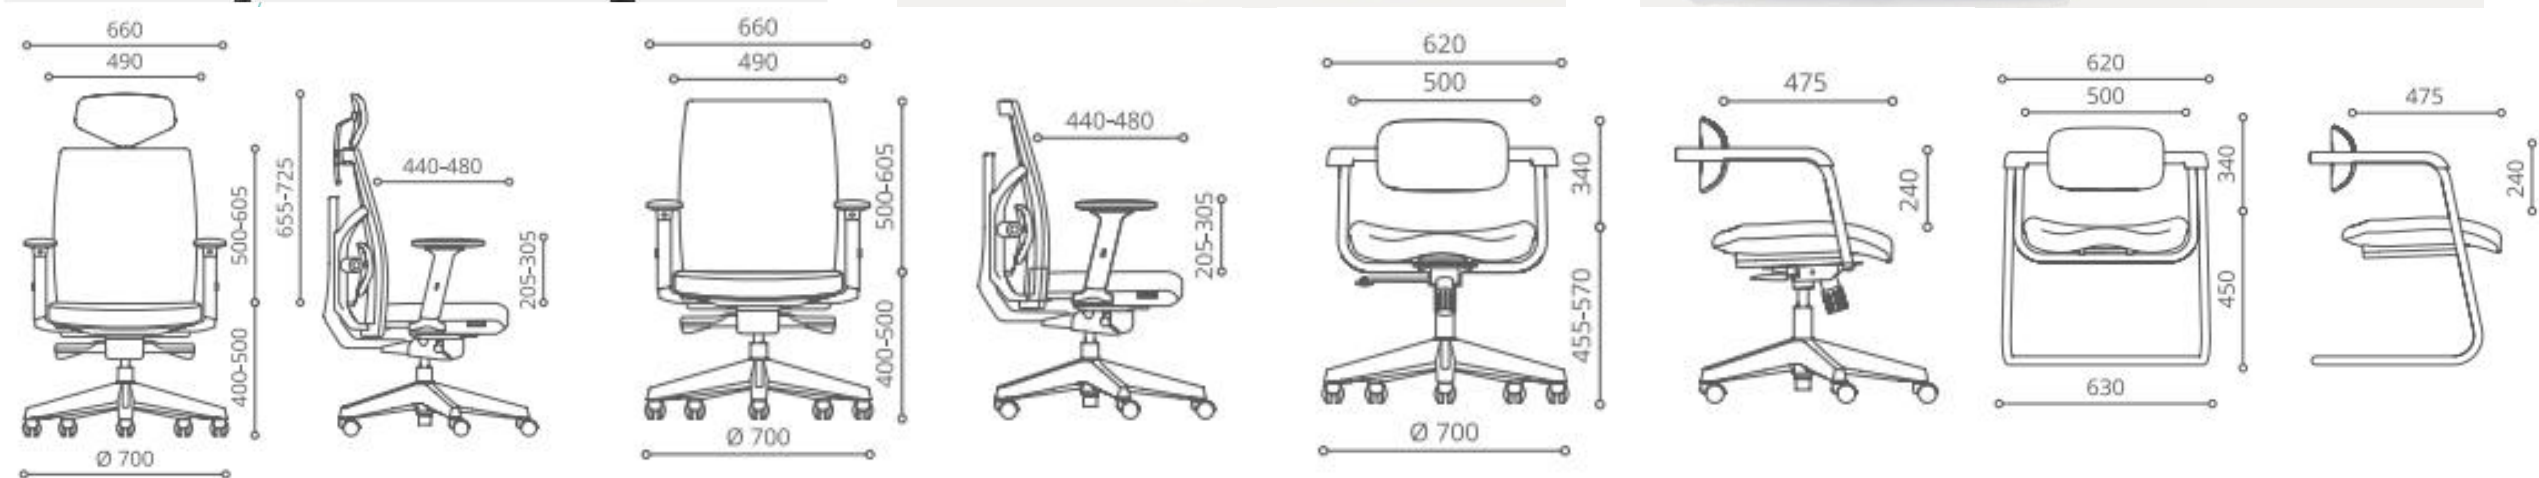

LT-SPINELLY系列

Our spine is one of the most important part of our body that gives us structure and support. It plays a vital role to enable us to perform simple tasks like standing up and sitting upright. Spinelly's inspiration comes from the structure of the human vertebrae. The idea is to create a chair that simulates the support of the spine. Spinelly is available in two colours, black for a polished and sleek look, white for a fun and edgy office setting.

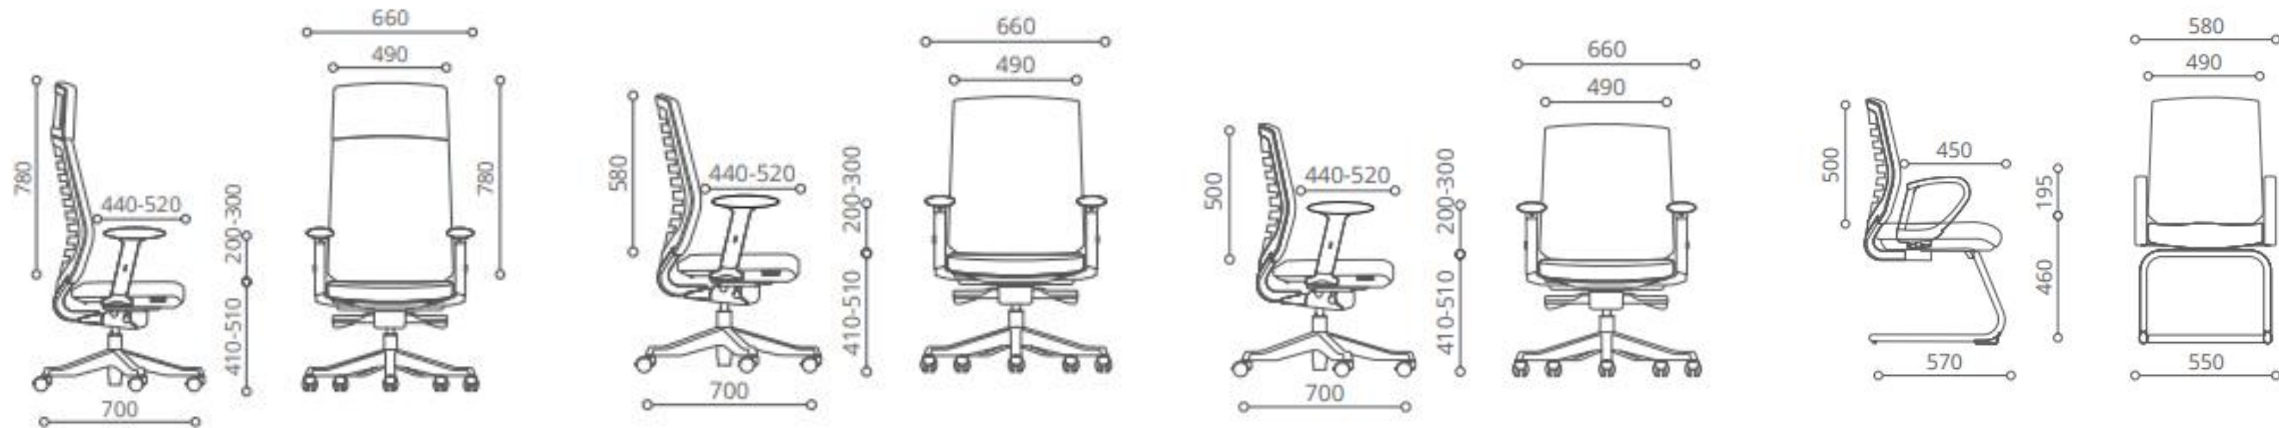

LT-Tune系列

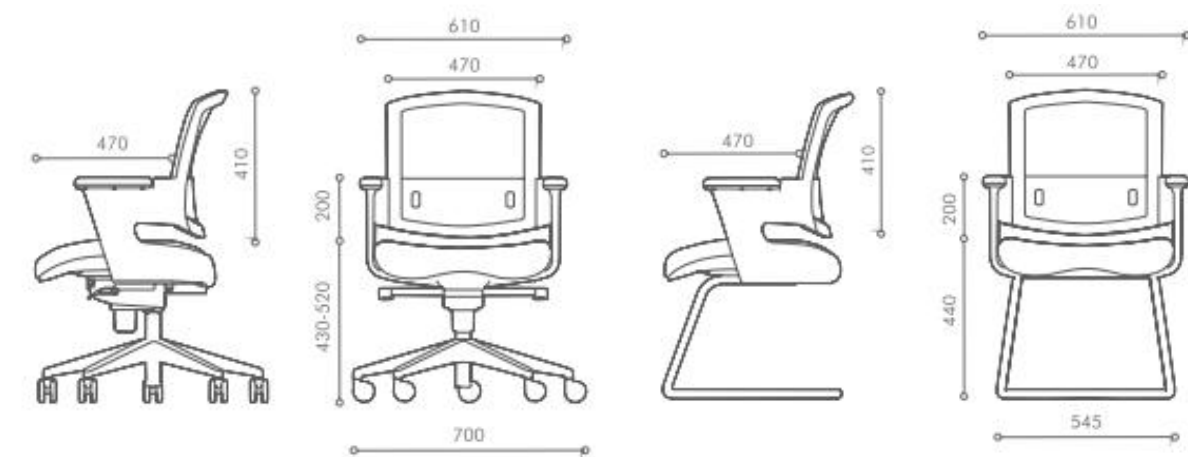

,a multifunctional office chair with extreme looks and the ability to stand up to today's dynamic corporate life.

LT-VELO

The Velo product family offer four models in the range to meet different needs and budgets in a workplace.
